Subject: RE: !REQUEST FOR REVIEW! Sun'aq QAPP for Kodiak Island Tribes Subsistence Consumption Assessment

Hi QA Team,

I quickly glanced at this QAPP and it is for a fish consumption survey, not fish sample collection and analysis. This is an example of what I mentioned in the QA training about "non-traditional" QAPPs, for lack of a better term. Once this doc is assigned to someone on the QA Team, could we (QA Team member, Lon, Ginna, me, and Ann and Mark if they are interested) get together for a quick chat on how we are going to respond to this request for a review. The QAPP indicates that the objective of the study is for informational purposes, but maybe we need to get that clarified with the Tribal Program. I just want to make sure we are all on the same page since we anticipate an increase in the number of fish consumption survey QAPPs from AK Native Villages in the future.

Thanks, Sheila

Hi Katherine,

Your Sun'aq QAPP has just been placed in the QA Unassigned QAPP Folder. When someone in QA picks it up for review, you will be notified. Thanks.

Greetings Gina and Lon!

This is Sun'aq's draft QAPP for an assessment of Kodiak Island Tribes' Subsistence Consumption. Although it is based on Seldovia's Cook Inlet work, they've done a lot to try to address concerns Lon identified with that project. Please let me know what you think. Your efforts are greatly appreciated!
